SAFECOMP 2018

Involvement: Regular Participation or Sponsorship package

SAFECOMP was established in 1979 by the European Workshop on Industrial Computer Systems, Technical Committee 7 on Reliability, Safety and Security (EWICS TC7). Since then, it has contributed to the progress of the state-of-the-art in dependable application of computers in safety-related and safety-critical systems.

SAFECOMP is an annual event covering the state-of-the-art, experience and new trends in the areas of safety, security and reliability of critical computer applications.

SAFECOMP provides ample opportunity to exchange insights and experience on emerging methods, approaches and practical solutions. It is a single-track conference without parallel sessions, allowing easy networking.

To be involved in SAFECOMP 2018, different opportunities with different prices are at disposal. You could opt for regular participation or for subscription of a sponsorship's opportunity.

We hope that you will consider participating in SAFECOMP 2018 and we are looking forward to meeting you in Västerås.

The Organizing Committee

Regular participation

Register as conference participant to interact with peers and have a look at the latest research results.

Sponsorship

Subscribe one of the available sponsorship opportunities (see sponsorship prospectus) to increase your visibility and networking opportunities, thereby increasing your corporate profile, as well as your opportunities to create future joint activities.
